

KAMBA possibilities

Entre las distintas formas y dimensiones de los perfiles de silicona se encuentra el perfil idóneo para cualquier tipo de aplicación curva. Las posibilidades que ofrece cada perfil genera una gran variedad de opciones para arquitectura y decoración, tanto en interiores como en exteriores. Se recomienda el uso de cintas con un mínimo de 120 LED/m. Material: Silicona hidroxilada [polímero orgánico]
Tª trabajo: -60° a +300°C

Among the different shapes and dimensions of the silicone profiles is the ideal profile for any type of curved application. The different possibilities offered by each profile generates a wide variety of options for architecture and decoration, both indoors and outdoors. The use of stripes with a minimum of 120 LED/m is recommended. Material: Hydroxylated silicone [organic polymer]
Working temperature: -60° to +300°C
